About the Northern Colorado Medical Society

NORTHERN COLORADO MEDICAL SOCIETY

Established in 1903, the Northern Colorado Medical Society (NCMS) provides a forum for the discussion of social, scientific and legislative concerns affecting the health of local physicians and patients. We advocate on behalf of physician members and work to promote better health in northern Colorado. The Larimer County Medical Society and the Weld County Medical Society merged in 2014 to form the Northern Colorado Medical Society to better serve our region.

The mission of NCMS is to advocate on behalf of our physician members, to encourage a strong and healthy medical profession, and to improve the health and wellbeing of all people in our community.

Serving our Community

Our directory, also available online, helps patients in our community find local physicians. Our website features local medical news stories, reports on events, and links to other health organizations. Visit www.nocomedsoc.org. We provide educational opportunities for physician members, working to ensure that social trends and their impact on the health of the community are assimilated into best practices. We participate in community initiatives that address health issues and serve on coalitions promoting better health.
