

*The mission of the Northern Colorado Medical Society (NCMS) is to advocate on behalf of our physician members, to encourage a strong and healthy medical profession, and to improve the health and wellbeing of all people in our community.*

**Dates to Remember:**

**August 17 - New member meet and greet, 4pm, Residence hosted.** *Join us for a non agenda mixer.*

**October 10 - Legislative Night 6-9pm, Biaggi's Restaurant, Loveland, CO.** *Come talk to your representatives about issues you care about.*

*Please note: We are adding more buprenorphine waiver training opportunities for 2019 and are in the planning stages. Please contact us if you are interested.*

*RSVP to: Maria Medina, EdD, Executive Director*

*email: [maria@nocomedsoc.org](mailto:maria@nocomedsoc.org)*

*Visit us at [nocomedsoc.org](http://nocomedsoc.org)*

*Or call 970-829-7860 for more information*

# Northern Colorado Medical Society, 2019

Working to keep you informed, engaged and empowered

Welcome to the Northern Colorado Medical Society! We are a medical society that places members at the center of our advocacy mission by keeping you more informed, engaged and empowered than ever before.

## HERE IS WHAT THIS MEANS TO YOU:

- **You will be informed with up to date policy issues and how each affect you as a provider.**

In 2019, there will be continuing focus on advocacy strategy implemented to ensure prompt distribution of policy information to all members, fact sheets with key findings and education on each issue researched and created by the Colorado Medical Society.

- **You will be engaged by having an unprecedented voice in NCMS.**

In 2019, NCMS will continue the grassroots policy communications process that opens up access to NCMS staff and board members. We will continue to solicit your policy ideas, feedback or questions on policy, and input and advice on subjects that are important to you and your patients. Please be aware of the Central Line proposals that come across your email from CMS. This is a crucial tool for you to be heard.

- **You will be empowered by receiving meaningful information from NCMS and CMS.**

In 2019, NCMS will regularly provide clear and concise information on ways to be more involved as well as provide, you, our members, with region specific health outcomes data. Please consider serving on the NCMS board, representing Northern Colorado on policy committees for the Colorado Medical Society, participating in the planning of policy issue forums, contacting representatives in your district and taking part in the annual Northern Colorado Legislative Night.
