## What does NCMS do for me?

The Northern Colorado Medical Society (NCMS) is the largest component medical society of the Colorado Medical Society (CMS). Individual physicians choose to be a part of a more than 800-physician membership organization that works hard to deliver the best local programming and social events. With active membership, physicians and their practices or organizations have many tools and resources available to you through NCMS and CMS. Don't hesitate to reach out to your staff and leaders in NCMS with questions about our services.

### EDUCATION

- Engaging speakers cover a wide range of clinical and practice management topics
- CME provided at some member events

### ADVOCACY

- Communication with our local legislators on health issues important to members, patients, and citizens of Larimer and Weld counties
- Legislative Night to discuss current issues with candidates and elected officials
- Engage with the Colorado Medical Society (CMS) on evolving issues in the practice of medicine

### STATE LEADERSHIP

- NCMS has a dedicated board member who represents NCMS interests as a Director at the Colorado Medical Society
- Central Line, an online policy engagement platform, allows NCMS members to submit policy proposals directly to the CMS Board of Directors

### MEMBER SERVICES

- Society staff always available to assist you and your staff with practice management issues
- An annual printed Physician Directory and Patient Resource Guide

As a Pathologist, I found a network of highly engaged and thoughtful physicians through NCMS I would otherwise not normally meet. I believe in organized medicine and the power of our collective voices.

I am thankful for your membership and I look forward to working with the NCMS Board of Directors and staff to work on behalf of northern Colorado physicians!
